E. SESSION SUMMARY:

Q: "Describe the vicinity/area of missing person."  
A: (SEE SKETCHES ATTACHED)

- 1) The area is an area of shifting sand dunes which have hard packed, flat ground between the dunes (see Fig. 1).
- 2) There is a range of mountains very far away (15-20 miles) to the south and extending northwestward (see Fig. 1).
- 3) Several miles to the northwest is an old tower of some sort (see Fig. 2).
- 4) Also to the northwest, but more westerly, is a large flat area where there are no dunes. This area is flat, hard-packed, very dry and has whitish-looking ground (see Fig. 2).
- 5) About 1/4 mile from the the missing person, to the southwest, is a parking area for tourists. The tourists are roaming around on the flat ground between the dunes in the area between the parking lot and the missing person (see Fig. 2).
- 6) Approximately 1/4 mile further to the southwest from the parking lot is a road/hwy which runs southeast-

northwest (see Fig. 2). The entrance to the parking area from this road is a divided area with a large sign (see Fig. 3).

- 7) Approximately 1/4 mile down the highway to the southeast from this entrance is a larger sign with a rounded top.
- 8) This entire area is located east of Chihuahua, Mexico.

Q: "Is the target person alive or dead?"

A: The target person is dead. She is lying barely exposed under blowing sand.
